

National Day of Remembrance Committee invite all to the Largest Family Reunion Ever!

Members of the National Day Of Remembrance Committee are in the beginning stages of planning an extraordinary endeavor that is to be held in the month of September 2010, our first ever Day Of Remembrance in which we of the Diaspora are honoring our ancestors for their legacy, their struggles, and their GOD blessed endurance. We plan to hold this event at every State Capital throughout the nation with the main event to be held tentatively in Jamestown, Va. the historical site of entrance into this country. We are also reaching out to our people whom were scattered to other lands asking them to join us for this great celebration.

On That day *we want to first sing and shout out thanks to the Most High for His Mercy and Blessings that allowed our ancestors to continue to multiply and not succumb to the worst atrocity known to mankind, The Atlantic Slave Holocaust.*

On That day *we would cry out thanks to the millions of our people, men, women, and children who were forced via their holocaust to endure more than we could ever imagine.*

On That day *we will remember that they were stolen from their land, having their tongue, their loved ones, their heritage, knowledge of their God, and far too often their lives cruelly taken from them.*

On That day *let's not forget how they, their children and their children's children were forced to harshly work this land under the most inhumane, merciless conditions never to reap any benefits for their labor.*

On That day *we will admit and appreciate the fact that had it not been for their endurance and their sacrifice, there would be no us.*

On That day *we will also cry out to the Most High collectively seeking his forgiveness for any transgression our ancestors as well as we as a people have ever committed.*

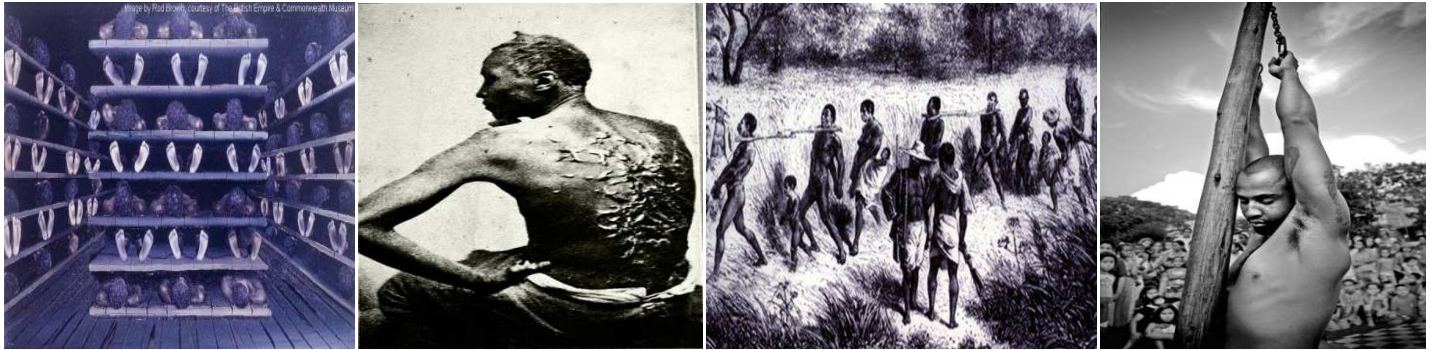

On That day *we will also shout out apologies to our ancestors for all the evil another has systematically forced upon them instead of continually waiting for their apologies.*

On That day *we would shout for reparations for those of us whom has the effects of this holocaust embedded within us still today.*

On This Day *we are reaching out to all whom can volunteer their help in the planning process, including everything from the gathering of our people to sponsorship support. If you would like to participate (or) feel as though you can contribute in anyway, please contact us at: dayofremembrance@att.net, Or call 314-653-6845 or 314-353-8917*

THANK YOU
